**SECTION C - DESCRIPTIONS AND SPECIFICATIONS****USSOCOM TASK ORDER SUPPORT  
FOR HQ USSOCOM GCCS-J COP & I3 SUPPORT**

**1.0 Task Scope:** Reference SOW, Section 3.0, Paragraphs 3.1.1, 3.1.8, 3.1.9, 3.3.3, 3.4.2, 3.4.3, and Appendix A. The objective of this Task Order is to provide support for HQ USSOCOM Global Command and Control System – Joint (GCCS-J) system administration, integration and test support for GCCS-J within the USSOCOM enterprise environment. This task applies to HQ USSOCOM.

**2.0 Execution Plan:**

**2.1 Management Plan.** Team EITC will incorporate this task into our *Centralized Management – Distributed Execution* program management process and execution model. In accordance with this model, the point of contact is the Team EITC SOCOM Site Director, who is the Task Lead and responsible for ensuring successful execution of the Task Order requirements.

**2.2.1 Enterprise Support.** Team EITC enterprise personnel, primarily through the EIT Council and specific Enterprise Principals will review and assess the requirements under this Task Order to identify opportunities where an enterprise solution will ultimately be more effective and efficient for USSOCOM and the SIE.

**2.2.2 Task Integration.** Team EITC will use the resources associated with this Task Order to primarily support the requirements described below.

**2.2 Technical Plan.**

**2.2.1 Task Order Technical Overview.** Team EITC will fully comply with all objectives within the Government Task Order. Team EITC will provide surge support services for GCCS-J COP & I3 and emerging requirements.

**2.2.2 Support.**

**2.2.2.1** Team EITC will install, configure, operate, maintain, troubleshoot, and repair GCCS-J Windows servers on the Sensitive Compartmented Information (SCI) Network.

**2.2.2.2** Team EITC will conduct, test, and document system/maintenance upgrades for GCCS hardware, firmware, and software (e.g. servers, switches, routers, and back-up equipment) to include information protection measures.

**2.2.2.3** Team EITC will administer GCCS user accounts, system policies and profiles. Maintain host tables (printers, workstations, servers etc) on enterprise servers.

- 2.2.2.4** Team EITC technicians will provide GCCS-J technical expertise and assistance to remote system administrators at Component locations. Team EITC will support exercises and deployments, remote or deployed and maintain the basic garrison requirements.
- 2.2.2.5** Team EITC will coordinate with local and remote users and operator to configure GCCS hardware and network systems for optimum performance to support exercises and operations and to provide GCCS-unique technical assistance for trouble tickets and change requests.
- 2.2.2.6** Team EITC will support the implementation of Active Directory on GCCS-J servers and virtual private network (VPN) enclave.
- 2.2.2.7** Team EITC will manage enterprise and HQ USSOCOM site-level IT requirements for GCCS-J. This support will include providing time and cost estimates for IT infrastructure requirements.
- 2.2.2.8** Team EITC will liaison and coordinate with Component GCCS planners and with local users to collect and develop the GCCS requirements for the Command. Team EITC will prepare, staff, and submit requirements documentation on behalf of the Component and local users and maintain a database supporting enterprise and local GCCS requirements.
- 2.2.2.9** Team EITC will liaison and coordinate with DISA's GCCS-J Program Manager's Office and with the Air Force GCCS-AF Program Office to identify programmatic solutions for user requirements and to track the status of solutions in development.
- 2.2.2.10** Team EITC will liaison and coordinate with vendors to identify potential emerging technology applications and identify specific solutions for site-unique GCCS requirements.
- 2.2.2.11** Team EITC will develop and maintain Command GCCS architectures (operational, system, technical) to include graphically documenting architectures/topologies.
- 2.2.2.12** Team EITC will perform/support the research, writing, revision, and editing of local GCCS planning and technical support documentation to include software version description documents, IP addressing schemas, architecture diagrams, technical transition plans, installation schedules, training plans and security accreditations.
- 2.2.2.13** Team EITC will maintain accountability of automated information systems (AIS) equipments assigned to the GCCS Branch. Team EITC will track new hardware, software and license purchases against specific requirements and change request documents.

- 2.2.2.14** Team EITC will liaison and coordinate with the configuration management, information assurance and other enterprise principals and coordinators as needed.
- 2.2.2.15** Team EITC will provide the USSOCOM GCCS-J Project Manager with analysis and recommendations for future designs and architectures supporting USSOCOM GCCS-J.
- 2.2.2.16** Team EITC will support USSOCOM participation in joint command & control system tests by installing, configuring, evaluating and documenting the performance of test software.

### 3.0 Task Order Performance Information:

- 3.1 Period of Performance.** The period of performance for this Task Order is 12 September 2008 thru 11 September 2009.
- 3.2 Place of Performance.** This Task Order will be performed at HQ USSOCOM and government facilities in the USSOCOM enterprise as required.
- 3.3 Hours of Work.** There will be periods during which Team EITC will be required to work weekends, extended hours, and be on call for mission critical support. If these extended hours become excessive, Team EITC would expect USSOCOM to provide additional support.

### 4.0 Security Clearance Requirements: THE DD254 IS INCORPORATED AS ATTACHMENT 1 TO THIS TASK ORDER AND WILL BE PROVIDED VIA SEPARATE CORRESPONDENCE

**4.1 Security will be in accordance with the attached DD254. Team EITC personnel supporting this task** (b)(2)High **at the start of the task.** (b)(2)High

(b)(2)High **Team EITC personnel supporting this task will require access to** (b)(2)High  
(b)(2)High **computer systems only at government facilities. Team EITC personnel supporting**

(b)(2)High

**4.2 Team EITC will insure requirements for safeguarding classified information and classified materials, for obtaining and verifying personnel security clearances, for verifying security clearances and indoctrination of visitors, for controlling access to restricted areas, for protecting government property, and for the security of automated and non-automated management information systems and data are fulfilled. The Team EITC management system shall prevent unauthorized disclosure of classified and sensitive unclassified information. The government shall be immediately notified if any security incident or any indication of a potential unauthorized disclosure or compromise of classified or sensitive unclassified information.**

**4.3 Team EITC will provide security management support. Typical efforts include, but are not limited to, performing classified document control functions, classified materials inventories, program access requests, preparing and monitoring personnel indoctrination and debriefing agreements, and maintaining and using security-related databases.**

**5.0 Travel:** Travel costs are reimbursable. The Government estimates that \$15,000 will be required for travel in support of this task. Travel requirements will be directed and approved by the government. Prior to any travel being accomplished under this Task Order, Team EITC will present detailed travel estimates to include airfare, lodging, meals and ground transportation for government review and approval.

- 6.0 Materials:** The government will provide necessary materials.
- 6.1 The government will provide necessary office space and facilities for materials storage.
  - 6.2 The government will provide tools, supplies, and necessary test equipment to meet Team EITC developed bills of materials.
  - 6.3 The government will execute maintenance contracts, if needed, to ensure operation of unique equipment.
- 7.0 Contract Data Requirements List (CDRL):** Documentation provided as a result of this Task Order will be considered sensitive and not subject to public disclosure.
- 7.1 Team EITC will provide status reports as part of the monthly Team EITC Summary Status Report.
  - 7.2 Team EITC will provide Trip Reports and Technical Reports as required.
