28 May 2004

MEMORANDUM FOR: [REDACTED]

SUBJECT: Request for Modification to Contract USZA22-03-C-0056.

1. Request contract USZA22-03-C-0056 be modified for J3 Communications Company to purchase the following equipment based on the attached price quote:

a. [REDACTED] least Source upgrade as noted in the attached 19 May 2004 Kentuckiana Comfort Center Inc. quotation. [REDACTED]

b. [REDACTED] least Source upgrade as noted in the attached 26 May 2004 Kentuckiana Comfort Center Inc. quotation. [REDACTED]

c. SOf-SA agrees with the State of Kentucky recommendation to single source this action to maintain continuity of operations with other State of Kentucky heating projects that are being worked through Kentuckiana Comfort Center Inc. on Bluegrass Station, and to further and expedite the completion of this work before the beginning of the 2004 heating season.

2. Perform this work under account 80DIR with total costs NTE [REDACTED]

LS Communications
5740 Briar Hill Road
Lexington, Kentucky 40516

Dear [REDACTED]

Subject: Heat Source for Bldg. 3, Bays A & B

In response to the request to provide an alternate heat source for [REDACTED] would like to offer the following.

[REDACTED]

Furnish and install four (4) Trane hanging heaters. Each heater will be a 400,000 BTU unit. The heaters will be installed at four (4) separate points within the Bay. The heaters will be suspended from above and vented to the outdoors either through the roof or the knee wall. The existing electrical circuit from the fan coil units will be extended to each new heater. A new wall-mounted thermostat will be installed to control each new heater. KCC will coordinate with the gas utility company to provide a new gas service to this Bay. This service will be extended from the meter loop to each heater. The new heaters will be started and checked to ensure their proper operation.

[REDACTED]

Furnish and install four (4) Trane hanging heaters. Each heater will be a 400,000 BTU unit. The heaters will be installed at four (4) separate points within the Bay. The heaters will be suspended from above and vented to the outdoors either through the roof or the knee wall. The existing electrical circuit from the fan coil units will be extended to each new heater. A new wall-mounted thermostat will be installed to control each new heater. KCC will coordinate with the gas utility company to provide a new gas service to this Bay. This service will be extended from the meter loop to each heater. The new heaters will be started and checked to ensure their proper operation.

The budget price to perform this work is [REDACTED]

This is a warm air type heat system. If a radiant heat source is preferred, then further study would be necessary. There are also several perimeter areas that are assumed to be heated from center conversations. Please give me a call with any questions.

██████████
L3 Communications
6749 Bickel Hill Road
Lexington, Kentucky 40518

Dear ██████████

I have reviewed the information that I have with regards to heating needs of ██████████
The following are budget prices to provide a heat source for these areas

██████████
Two areas of concern are the paint booth and the cleaning/chemical treatment rooms. In these areas there are high levels of exhaust equipment. Two separate direct-fired heated makeup air units will be installed. These units will be designed to make up the same volume of air that will be exhausted.

The remaining area will be heated with hanging heaters. KCC will coordinate with the gas utility company to provide a new gas service to this Bay. This service will be extended to each heater for this Bay. All new heaters will be started and checked to ensure their proper operation.

The budget price to perform this work will be ██████████

██████████
To heat the areas within ██████████ hanging heaters and gas furnaces will be used. The hanging heaters can be used for the center open areas. The gas furnaces will be used for the perimeter areas such as Steel metal cage, ATGL Work area, Testing Area, Break area, Team Leader office, Health Services men's and women's restrooms.

It is also assumed for budget pricing purposes that the filtering equipment for the sand blasting area recycles the air back to the indoor.

KCC will coordinate with the gas utility company to provide a new gas service to this Bay. This service will be extended to each heater for this Bay.

The budget price to perform this work will be ██████████

2716 Grassland Drive
Louisville, KY 40299

250 Gold Rush Road, Suite 2
Lexington, Kentucky 40503
██████████

May 26, 2004

[REDACTED]
To heat the areas in this Bay hanging heaters will be used. Smaller heaters will be installed to take care of the Carpenter's shop, storage, misc. storage, records storage, metal engraving, photo lab and paint storage areas.

KCC will coordinate with the gas utility company to provide a new gas service to this Bay. This service will be extended to each heater for this Bay.

The budget price to perform this work will be [REDACTED]

[REDACTED]
Hanging heaters will be used to heat all areas of this bay. Both large and small heaters will be installed in the areas within this Bay. The existing gas service will be utilized to serve this Bay. It will be extended to each new heater.

The budget price to perform this work will be [REDACTED]

I hope that this report meets yours and Mr. Campbell's expectations. Please call with any questions that you may have. I know that this is an important matter to you (and it is to me too). I will make every effort to get you any information that you may need to get this project under way.
