

EXPANDING THE COMPETITIVE SPACE

SPECIAL OPERATIONS FORCES INDUSTRY CONFERENCE

COL Paul Weizer, Program Executive Officer

SOF DIGITAL APPLICATIONS

PEO SOF Digital Applications: What

Establish a PEO with the technical skills and competencies necessary to focus on SOF software intensive projects in accordance with DoDI 5000.02 (Jan 23, 2020) under Software Acquisition and Defense Business Systems Pathways

PEO SOF Digital Applications: Why

NDS, CPG, MDO, JADO, JADC2 and the peer/near-peer competitive environment (Cyber, AI/ML, Data Analytics) demands SOF AT&L re-organization to develop and build SOF Software Acquisition as a core competency now and into the foreseeable future

PEO SOF Digital Applications: Who

- PEO SDA will assume PEO RW force structure
- PEO SDA will consolidate current SOF software intensive programs (DCGS-SOF, Mission Command/COP, ISP, SOFPREP, TAK Core, SOMPE, SOF DE, AMS)

PEO Rotary Wing Systems: Who

- PEO RW mission/portfolio will be consolidated under the Dir, Aviation Integration Directorate for Special Programs at JBLE. PEO SDA
- DPEO RW will remain in Tampa with structure to support SAM functions

PEO SOF Digital Applications: Where

PEO SDA headquartered in Tampa with satellite program offices in various CONUS locations

PEO SOF Digital Applications: Vision & Mission

Vision: Provide USSOCOM a "One-Stop-Shop" for SOF software intensive digital applications

Mission: Rapidly consolidate, integrate, acquire, and/or divest of SOF unique software solutions through the use of DoDI 5000.2 Software Acquisition and Defense Business System Pathways and commercial "best practices" while providing "cradle-to-grave" management for the duration of required capabilities
