| | | | To aid with this aspect of the SOF AT&L mission, this requirement is to procure production of a Digital Ecosystem (DE) Commercial Market Analytics Capabilities (CMAC). The need is for Publicly Available Information (PAI), Non-public, and Commercial data. Users must have access to the right data, in the right place, and at the right time. Data is a strategic asset that positions SOF to gain strategic long-term advantages over adversaries when data becomes a critical part of the mission. Acquired data will be used for rapid and informed decisions at all levels in USSOCOM. USSOCOM is seeking capabilities that enable DoD, Interagency, and international users' access to PAI, Non-public, and Commercial data providing increased situational awareness by leveraging Artificial Intelligence (AI)/Machine Learning (ML) technologies and state-of-the-art analytic tools. Solutions should allow for the rapid integration and deployment of innovative plug-and-play technologies, as well as leverage ML to automate analytics, and provide authentication, end-user access, security, auditing, compliance, managed attribution, and dynamic scaling support servicing a variety of mission-focused toolkits. | \$ | 98,000,000.00 | TBD | N/A (OTA) | Jan-28 | Sep-28 | N | H924332390001 | NTS | \$98,000,000.00 |
