Totals	23	30	48	60	18	1067	1085	1145	1193				Within required ratio

- ### Current Top 5 Primary Diagnoses
1. Mental Health
 2. Cancer
 3. Fractures
 4. Neurological
 5. Musculoskeletal

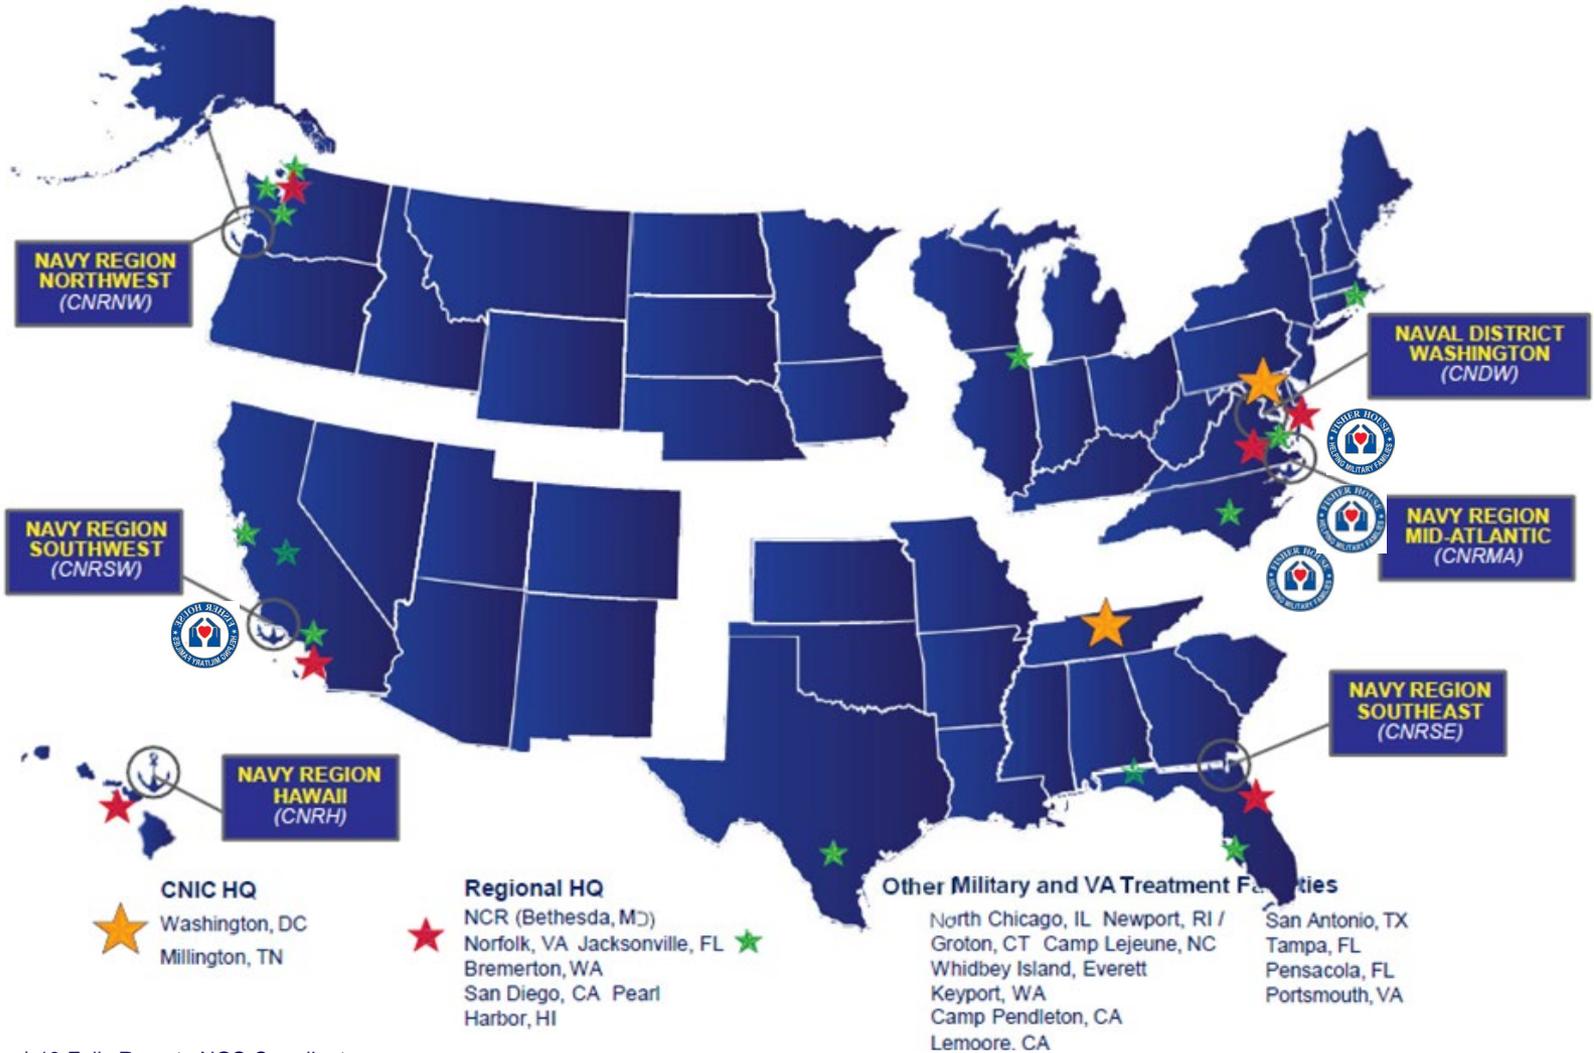

NWW Nuances

- Enrollees remain assigned to the parent command so the Program has no C2 over enrollees
- Enrollment is centrally managed
- Program of Record for USCG.
- Navy Benefits Approving Authority for Special Compensation for Assistance with Activities of Daily Living (SCAADL) and Pay and Allowance Continuation (PAC) Program.
- Alignment of policy under DHA. Non-medical program (largely personnel related issues). Creates issue with understanding program needs/requirements.
- Submitted multiple waivers to ASN(M&RA) for approval to assign more than 40 cases per care manager due to significant increase in enrollment

N95 Geographic Footprint

* 19 Fully Remote NGS Coordinators

Navy Wounded Warrior Testimonial

“I did hit some very dark places. I had made plans to terminate my existence and was trying to find the best way to do it without having a negative impact on my family. I went to an adaptive sports introductory camp with the Navy Wounded Warrior program and it was through that camp that I found a renewed sense of purpose and a renewed sense of self.”

NDC (Ret.) Julius 'Jules' McManus
Recovering Service Member, adaptive sports participant
