Resurgence PPG

Wounded Veteran
Learns To Fly

About The Sport

Paramotoring is an exhilarating sport that requires no license, no medical certificate, and no airport. You can carry everything you need to fly in the back of a car and can launch from an open field, beach, or backyard. The community is close knit and provides a great sense of camaraderie through exploration.

About Us

Resurgence is a 501(c)(3) non-profit that focuses on the transformative rehabilitation of disabled veterans through the adventure sport of paramotoring. We work in conjunction with certified instructors to facilitate training and provide unique paramotoring adventures at NO COST to our wounded veterans.

To be nominated for training visit: www.resurgenceppg.com/nomination
