

NAVSCIATTS

Building the Global Network Powered by Trust

For use from Feb. 2021 to Oct. 2021

Courses affected due to COVID-19. Information subject to change.

FEB 2021

WHO WE ARE

Naval Small Craft Instruction and Technical Training School (NAVSCIATTS or SCIATTS) is a Security Cooperation schoolhouse operating under U.S. Special Operations Command in support of Foreign Security Assistance and Geographic Combatant Commanders' Theater Security Cooperation priorities.

NAVSCIATTS trains and educates Partner Nation Special Operations Forces (SOF), combat support, and combat service support personnel. Partner Nation forces are trained across the tactical, operational, and strategic spectrums through in-residence and Mobile Training Team (MTT) Courses of Instruction (COI). COIs include operations, repairs, sustainment of craft (both riverine and littoral), communications, weapons, small unit tactics, range safety, Unmanned Aircraft Systems, intel fusion operations, as well as Partner Nation instructor development. While the name implies, "naval" and "small craft," more than half of the current courses apply to any security force. Examples include the Diesel Systems Overhaul and Maintenance and International Tactical Communications.

In addition, NAVSCIATTS has the ability to meet emergent requirements from operational commanders. NAVSCIATTS' training engagements help develop, shape and maintain long-term strategic relationships over decades and protect the investment of the U.S. and our key Partner Nations. To date, NAVSCIATTS has trained with almost 13,000 students from more than 120 Partner Nations.

BUILDING PARTNER CAPACITY “TRAIN THE TRAINER” MODEL

In-Resident Training

Selected individuals attend in-resident courses that develop operational proficiency and technical knowledge and skills.

Students are highly encouraged to attend the Instructor Development Course (IDC) to become effective instructors, teach their own country students, and reinforce learned skills which supports Building Partner Capacity efforts.

Mobile Training Teams/Exercise Augmentation

NAVSCIATTS deploys in support of Geographic Combatant Commands (GCCs), Theater Special Operations Commands (TSOCs) and Naval Special Warfare Units (NSWUs) Partner Nation in-country engagements.

Prior NAVSCIATTS' graduates are identified and are able to act as primary/adjunct instructors. This develops Partner Nation capability, Partner Nation instructors and Subject Matter Expert status credibility.

FOLLOW-ON ASSESMENT/CURRICULUM REVIEWS AND SPECIALIZED COURSES OF INSTRUCTION ARE AVAILABLE UPON REQUEST.

TABLE OF CONTENTS

STRATEGIC COURSES

- | | | |
|---|--|----------------|
| 5 | Strategic Leaders International Course | MASL (P145054) |
| 6 | Partner Nation Instructor Program | MASL (P145149) |

OPERATIONAL COURSES

- | | | |
|----|---|----------------|
| 8 | Diesel Systems Overhaul and Maintenance | MASL (P145907) |
| 9 | Outboard Motor Maintenance and Overhaul | MASL (P145906) |
| 10 | Technical Welding and Applied Repairs | MASL (P145903) |
| 11 | UAS Operations and Planning | MASL (P119085) |

TACTICAL COURSES

- | | | |
|----|--|----------------|
| 13 | Patrol Craft Officer – Coastal | MASL (P145062) |
| 14 | Patrol Craft Officer – Riverine | MASL (P145909) |
| 15 | Waterborne Instructor Course – Coastal | MASL (P145118) |
| 16 | Waterborne Instructor Course – Riverine | MASL (P145083) |
| 17 | Patrol Craft Advanced Training (Unit Level Skills) | MASL (P145152) |
| 18 | International Tactical Communications Course | MASL (P145000) |
| 19 | International Small Arms Maintenance | MASL (P145904) |

ROM COURSES

- | | | |
|----|---|----------------|
| 20 | Instructor Development Course | MASL (P471905) |
| 21 | Intel Fusion Operations and Integration | MASL (P471063) |
| 22 | Range Operations Safety | MASL (P471131) |

Strategic Leaders International Course

Capacity: 20 students up to 5 courses per year

Length: 4 weeks

Classroom and Practical Application: 160 hours

SLIC MASL: P145054

The purpose of the Strategic Leaders International Course (SLIC) is to build partner capacity by offering senior military leaders (O5-O7 level) and senior government officials of partner nations new perspectives, methodologies, and opportunities for thinking strategically and for designing strategies that successfully address complex challenges. Strategic Leaders are introduced to methods and processes for Design Thinking, Systems Thinking, and Public Interest Communications and receive instruction from professionals who currently use these methodologies and processes in the public and private sectors.

During the course, Strategic Leaders will apply these methods in hands-on exercises, in various case studies, and in a capstone exercise designed against a current strategic challenge relevant to student countries. This course is best suited for senior leaders interested in exploring leading-edge strategic thinking and in fostering enduring international relationships for a complex world.

Partner Nation Instructor Program

Capacity: Limited - Nominated by Partner Nation

Length: 18 - 24 months

PNI MASL: P145149

Partner Nation Instructors (PNI) are Junior Officers (O2-O3) or Senior Enlisted (E7-E9) nominated by their own countries to serve 18-24 months at NAVSCIATTS as a guest instructor. PNIs benefit from this opportunity through gaining instructor training qualifications, leadership skills development and working with a highly professional team that trains Foreign Security Force students from around the world.

The PNI is designed for small craft waterborne, small unit tactics, unmanned aerial vehicle, intelligence operations or maintenance instructors who will return to their home country with the experience of performing as part of a professional training staff. The expectation is that the gained experience will enhance their ability to implement changes to training organization processes and programs, understand resource and facility requirements needed to run an effective training facility, develop comprehensive training plans and professionalize curriculum delivery methods.

Diesel Systems Overhaul and Maintenance

Capacity: 15 students X 5 courses per year

Length: 7 weeks

Classroom and Practical Application: 280 hours

DSOM MASL: P145907

Diesel Systems Overhaul and Maintenance (DSOM) is a seven-week course of instruction designed to provide Foreign Security Force personnel with the knowledge and skills required of a basic diesel engine technician.

Students will apply their knowledge of diesel engine theory, and proper use of hand tools and precision measuring instruments to safely perform routine preventative maintenance and service repair procedures, such as troubleshooting, disassembly, inspection, repair, and reassembly of diesel engines.

Outboard Motor Maintenance and Overhaul

Capacity: 15 students X 5 courses per year

Length: 7 weeks

Classroom and Practical Application: 280 hours

OBM MASL: P145906

Outboard Motor Maintenance and Overhaul (OBM) is a seven-week course of instruction designed to provide Foreign Security Force personnel with the knowledge and skills required of a basic outboard motor technician.

Students will apply their knowledge of internal combustion engine theory, and proper use of hand tools and precision measuring instruments to safely perform routine preventative maintenance and service repair procedures, such as troubleshooting, disassembly, inspection, repair, and reassembly of outboard motor powerheads, midsections, and gear cases.

Technical Welding and Applied Repairs

Capacity: 15 students X 5 courses per year

Length: 7 weeks

Classroom and Practical Application: 280 hours

TWAR MASL: P145903

Technical Welding and Applied Repairs (TWAR) is a seven-week course of instruction designed to provide Foreign Security Force personnel with the specialized training required to restore the structural integrity of steel, aluminum, and fiberglass hulls and components. Students will conduct factory-level maintenance and repairs on the Zodiac Combat Rubber Raiding Craft, as well as perform metal repairs to oxyacetylene cutting, fusion welding, Shielded Metal Arc Welding (SMAW) on carbon steel, and Gas Metal Arc Welding (GMAW) on aluminum.

UAS Operations and Planning

Capacity: 10 students up to 5 courses per year

Length: 4 weeks

Classroom and Practical Application: 160 hours

UASOP MASL: P119085

Unmanned Aerial Systems Operations and Planning (UASOP) is a four-week course of instruction designed to provide Foreign Security Force personnel with the specialized training necessary to plan and conduct operations employing Unmanned Aerial System (UAS) platforms.

UAS operators use the Falcon View flight planning software and their knowledge of flight operations, mission planning, airspace management, and emergency procedures to execute security actions such as target acquisition/development, battle damage assessment, convoy support, and force protection during tactical operations.

Building Global Relationships

One of, if not the primary benefit of training with NAVSCIATTS, is relationship-building. Many of our alumni remain in contact with the staff in regards to professional matters, such as evolving technologies or ever present training opportunities. The ability to provide training across course curriculums also provides an invaluable training opportunity and the formation of relationships.

“NAVSCIATTS is the ‘Tip of the Spear’ in Security Cooperation/Security Assistance training.”

~ Manny Bautista, NAVSCIATTS IMSO

Patrol Craft Officer - Coastal

THIS IS A HIGH RISK COURSE.

Capacity: 20 students X 5 courses per year

Length: 7 weeks

Classroom and Practical Application: 280 hours

P-COC MASL: P145062

Patrol Craft Officer – Coastal (PCO-C) is a seven-week maritime course of instruction designed to provide Foreign Security Force personnel with specialized training in the employment of small patrol craft to conduct security operations in the coastal environment in support of maritime operations.

Special focus includes maritime interdiction operations, counterterrorism, humanitarian/natural disaster relief, and counter-narcotics operations. Students will perform mission planning, craft operational checks, coastal navigation using maps, charts and onboard electronic navigation equipment. Students will also employ crew-served weapons, conduct security patrols using night vision goggles, execute maritime interdiction operations, and transport ground forces.

Patrol Craft Officer – Riverine

THIS IS A HIGH RISK COURSE.

Capacity: 16 students up to 5 courses per year

Length: 7 weeks

Classroom and Practical Application: 280 hours

PCO-R MASL: P145909

Patrol Craft Officer – Riverine (PCO-R) course is a seven-week course of instruction designed to provide Foreign Security Force personnel with the specialized training necessary to effectively plan and safely execute patrol craft security actions supporting the interdiction of illicit contraband, counter-narcotic/counter-terrorism operations, and waterborne special operations in the riverine environment.

Students will perform mission planning, craft operational checks, and riverine navigation using maps, charts, and onboard electronic navigation equipment. Students will also employ onboard crew-served weapons, conduct security patrols using night vision goggles, conduct vessel board and search, and transport ground forces.

Waterborne Instructor Course – Coastal

THIS IS A HIGH RISK AND ATTRITION-BASED COURSE.

Course scheduling by request at least one year prior notice.

Capacity: 24 students upon special scheduling request

Length: 7 weeks

Classroom and Practical Application: 280 hours

WIC-C MASL: P145118

WIC-C is a seven-week advanced course of instruction that provides graduates of the Patrol Craft Officers Coastal course (MASL P145062) or those personnel with proven expertise as coxswain of coastal craft (less than 40ft/12m) with the basic skills to deliver lessons and to conduct high-risk training in the coastal environment. Course topics include human rights, patrol craft familiarization, patrolling/formation techniques, high-risk instructor development, evolution safety, patrol craft coastal navigation, maritime interdiction and threat response while on patrol. Students will be required to pass an entrance examination which is used to verify they possess the essential skills necessary to provide effective small craft instruction to trainees. Students may be removed from the course if they do not meet the prerequisite requirements or fail to meet any of the course objectives.

Waterborne Instructor Course – Riverine

THIS IS A HIGH RISK AND ATTRITION-BASED COURSE.

Course scheduling by request at least one year prior notice.

Capacity: 16 students upon special request

Length: 7 weeks

Classroom Practical Application: 280 hours

WIC-R MASL: P145083

WIC-R is a seven-week advanced training course that provides graduates of the Patrol Craft Officer Riverine Course (MASL P145909) or those personnel who are able to verify that they are an experienced riverine craft coxswain with the basic skills to deliver classroom lessons and to conduct high-risk training in the riverine environment. Course topics include human rights, patrol craft familiarization, patrolling/formation techniques, instructor/high-risk instructor development, high-risk evolution safety, crew-served weapons, static and dynamic range operations, immediate action (threat response) while on patrol and insertion/extraction of ground forces. Students will be required to pass an entrance examination which is used to verify they possess the essential skills necessary to provide effective small craft instruction to trainees. Students may be removed from the course if they do not meet the prerequisite requirements or fail to meet any of the course objectives.

Patrol Craft Advanced Training

THIS IS A HIGH RISK COURSE.

Course scheduling by request at least one year prior notice.

Capacity: 12 students upon special scheduling request

Length: 5 weeks

Classroom and Practical Application: 200 hours

PCAT MASL: P145152

This course is conducted at the unit level and is not intended for individual students or groups of personnel from differing commands within the country's special operations organization.

Patrol Craft Advanced Training – (PCAT) course is a five-week course designed to provide established international military and police maritime special operations units/teams with advanced training in the tactical operation of coastal/riverine patrol craft during day and nighttime waterborne special operations missions in the littoral and riverine environments. A scenario-driven tactical field exercise conducted under simulated combat conditions is used to assess the group's proficiency in the course objectives.

International Tactical Communications Course

Capacity: 20 students X 5 courses per year

Length: 7 weeks

Classroom and Practical Application: 280 hours

ITCC MASL: P145000

International Tactical Communications Course (ITCC) is a seven-week course of instruction designed to provide Foreign Security Force personnel with the knowledge and skills to perform as a radio communicator. Students will utilize the Man-Pack (MP) and Hand Held (HH) radio platforms to successfully conduct High Frequency (HF), Very High Frequency (VHF), and Ultra High-Frequency (UHF) communications in the field. Employment of portable field communication equipment includes single/multiple channel programming, Frequency Hopping, Automatic Link Establishment (ALE), Third Generation Link Establishment (3G), frequency prediction, antenna selection and construction, Citadel/AES encryption, Computer Programming Application (CPA), communications operations planning, operator level maintenance, and troubleshooting of the radio including ancillary equipment.

International Small Arms Maintenance

Capacity: 15 students X 5 courses per year

Length: 4 weeks

Classroom and Practical Application: 160 hours

ISAM MASL: P145904

International Small Arms Maintenance (ISAM) is a four-week course of instruction that provides Foreign Security Force personnel with the knowledge and skills required to perform preventive maintenance and intermediate-level service repairs to both foreign and U.S. small arms and crew-served weapons systems.

Students will employ their knowledge of each specific weapon's characteristics, nomenclature, and operation theory to perform maintenance, operational checks, malfunction analysis, and operational repairs.

Instructor Development Course

THIS IS A ROM COURSE.

Capacity: 25 students X 5 courses per year

Length: 30 hours

IDC MASL: P471905

Instructor Development Course (IDC) is an advanced Restriction-of-Movement course of instruction designed to provide Foreign Security Force personnel with the specialized training necessary to deliver structured formalized training in the classroom and laboratory environments.

Students will utilize instructional techniques and theory, practical applications of instructional principles, and evaluation methods to effectively impart subject matter expertise and knowledge.

Intel Fusion Operations and Integration

THIS IS A ROM COURSE.

Capacity: 15 students up to 5 courses per year

Length: 30 hours

IFOI MASL: P471063

Intelligence Fusion and Operations Integration (IFOI) is a Restriction-of- Movement course of instruction that provides early/to mid-career Foreign Security Force personnel the knowledge and skills required to effectively utilize information and integrate intelligence into operations.

This course includes fundamental training on briefing techniques, intelligence disciplines, intelligence preparation of the operational environment, collection, intelligence support to operations, and predictive analysis. This course culminates with a practical exercise in developing intelligence products supporting simulated real-world operations.

Range Operations Safety

THIS IS A ROM COURSE.

Capacity: 15 students X 5 courses per year

Length: 30 hours

IDC MASL: P471906

Range Operations Safety (ROS) is a Restriction-of-Movement course of instruction designed to provide Foreign Security Force personnel with the specialized training necessary to effectively plan and safely execute static live-fire small arms land ranges as a Small Arms Instructor and Range Officer in Charge (ROIC)/Range Safety Officer (RSO).

ROICs/RSOs develop their knowledge of small arms range management, range regulations, and safety requirements to conduct static live-fire training evolutions.
